Session Reassessment Record

Document what changed, what remained stable and what happens next

Client: _____ Date: _____ Practitioner: _____

ORIGINAL SESSION PRIORITY

- ☐ What was selected and why?
- ☐ What client concern or observation supported it?

BASELINE

- ☐ Client-reported state before the session
- ☐ Relevant scan pattern and related views
- ☐ Observable comfort, energy and regulation

SESSION INPUT

- ☐ Programme, protocol or field used
- ☐ Order, duration and intensity/dose according to device guidance
- ☐ Any adaptation, pause or client feedback

REASSESSMENT

- ☐ What changed on the relevant scan view?
- ☐ What remained stable or became less clear?
- ☐ What did the client report or demonstrate?
- ☐ Was the pattern repeatable?

CONTINUE	PAUSE	CHANGE / REFER
Priority remains relevant and response is comfortable.	Response is unclear or more time is appropriate.	Priority is unsupported or needs assessment beyond scope.
