Scan Evidence Map

Organise information before choosing a practitioner priority

Client: _____ Date: _____ Session goal: _____

1 CLIENT REPORT

- ☐ Main concern in the client's own words
- ☐ Changes since the previous session
- ☐ Symptoms or experiences that need medical referral

2 CLINICAL CONTEXT

- ☐ Medical care, medication or recent procedures
- ☐ Sleep, hydration, food, stress and physical activity
- ☐ Relevant history and practitioner observations

3 SCAN OUTPUT

- ☐ Repeatable patterns relevant to the session goal
- ☐ Related organs, tissues or systems
- ☐ Findings that may share the same software source

4 RESPONSE OVER TIME

- ☐ Client response during and after sessions
- ☐ What changed, remained stable or contradicted expectations
- ☐ Follow-up observations and reassessment date

EVIDENCE REVIEW

CONVERGENCE	CONTRADICTION	ABSENCE
Independent lanes point in a compatible direction.	A meaningful item does not fit and needs exploration.	Expected support is missing; avoid forcing certainty.
Notes: _____	Notes: _____	Notes: _____

Working priority:

Why this priority is supported:

Next decision: ☐ Continue ☐ Pause and observe ☐ Change direction ☐ Refer / seek medical assessment
